

## DIVA 252

### **Indiana Line – an Italian brand with traditions**

Indiana Line has been famous for producing loudspeakers since 1977. The elements distinguishing this brand from competitive solutions are the optimized production process and the rational use of components, which translate into above-average quality of workmanship and sound.

### **Let yourself be surprised by the sound smoothness that is difficult to achieve**

The 2-way Diva 252 bookshelf speaker provides enviable resolution and the naturalness of voice reproduction, with a quick and precise impulse response. The warm and deep bass is complemented by the natural and detailed high frequencies. Despite its compact size, this loudspeaker positively surprises us with the strong, deep character of the reproduced sound.

### **Trust many years of experience in creating loudspeaker technology**

The 26-mm tweeter in the Diva 252 is attached to the loudspeaker with a soft rubber cover, which significantly reduces vibrations transmitted from the cabinet. This unit has been equipped with a radial rear chamber that uses two different types of sound damping materials.

The stiff and light 140-mm mid-woofer cones are made of Curv material – a woven, extruded polypropylene with high damping. The magnet system uses an aluminum ring which reduces non-linearities, maximizing resolution also at high volume levels.

### **Choose the perfect parameters for your interior**

The Diva 252 amplifier loading impedance is 4 – 8 ohms, and the dedicated amplifier power is 30–100 W. The loudspeaker will be perfect for rooms of up to 15 m<sup>2</sup>. It can be placed even close to the wall, thus taking advantage of the bass boost thanks to the location of the bass-reflex tunnel at the back of the cabinet.

### **Be mesmerized by the industry-leading design**

The Diva 252 loudspeakers are finished with an elegant black high-gloss lacquer and will perfectly fit into any interior. The double speaker terminals enable bi-wiring or bi-amping.

### **The most important features of the Diva 252 model:**

- 2-way acoustical bookshelf design
- Crossover frequency: 2,9 kHz
- 140 mm mid-woofer with Curv cone
- 26 mm silk dome tweeter
- Bass reflex cabinet with a port at the back
- Frequency response: 48 Hz to 22 kHz
- Bi-amping / bi-wiring capability
- Black piano lacquer finish
- Suggested amplifier power: 30 – 100 W
- Sensitivity: 90 dB (2,8 V / 1 m)
- Dimensions (H x W x D): 280 x 160 x 275 mm
- Weight: 5,3 kg
