Quick setup guide to connect the Podspeakers app to your new multiroom speaker.

Setup your speaker with the Podspeakers app

Download the Podspeakers app on Google Play or App Store.

Start by plugging in your speaker. Once you open the Podspeakers app it will start searching for speakers near by. Your Wi-Fi must be on.

The app then tells you what to do; Go to your phone's Wi-Fi settings and select the Wi-Fi starting with "MicroPod_XXXX" to connect.
